

RTO ID 91450

“At LDCT we believe that training can only be truly valuable if it is designed to teach more than simply **WHAT** to do and **HOW** to do it.

By also delivering an understanding of **WHY** things work as they do – knowledge gained from many years working at the very heart of this industry – we provide something that no other training program can match: real confidence in your ability to do the job effectively and enjoyably.”

About us

John Wollington
CEO

John brings to industry training more than twenty years of experience within both the laundry and dry cleaning industries. Additionally he runs a successful laundry design consultancy throughout Asia, Australia and the Middle East.

Kerryn Rizza
Head Trainer

Kerryn has an extensive background in the dry cleaning and laundry/valet industries, and ten years of industry training with RMIT University. She holds a Graduate Diploma in Industrial Education & Training.

"All of our training is workplace based, we come to your plant anywhere in regional and rural Australia, as well as overseas. So you don't have to travel to a major city on given dates."
